EDUCATION

Computer science

July 2027

Cairo University

Giza, Egypt

SKILLS

- C++
- OOP
- Java
- Git
- JavaScript
- Python
- SQLite
- Problem Solving

ACTIVITIES & AWARDS

June 2024

Participated in Egyptian Collegiate Programming Contest (ECPC).

September 2019

Silver medalist

Egyptian Olympiad in informatics (EOI).

Rank 17 out of 100 junior competitors using C++

SUMMARY

Computer science student who loves to learn new things and know new people. Gained problem-solving skills using C++, Java, and JavaScript. Currently learning OOP and algorithms. Seeking a job that makes me learn more technologies from experienced people.

EXPERIENCE

Intern, nandbox

February 2024 – June 2024

- Created video call widget between web and nandbox mobile application using webRTC with pure JavaScript.
- Integrated ChatGPT into nandbox messenger app using OpenAI API with Java and SQLite database to store conversation so the user can continue the previous chat.

PROJECTS

Baby Photoshop

April 2024

- Baby Photoshop is a C++ program created by Qt that applies filters to photos using image processing libraries.
- Designed and created the User Interface for the program using Qt Style Sheet.
- Implemented 6 image filters such as image resizing, and image crop.
